

TIPS FOR SOCIAL MEDIA MARKETING

01

GET INTERESTED

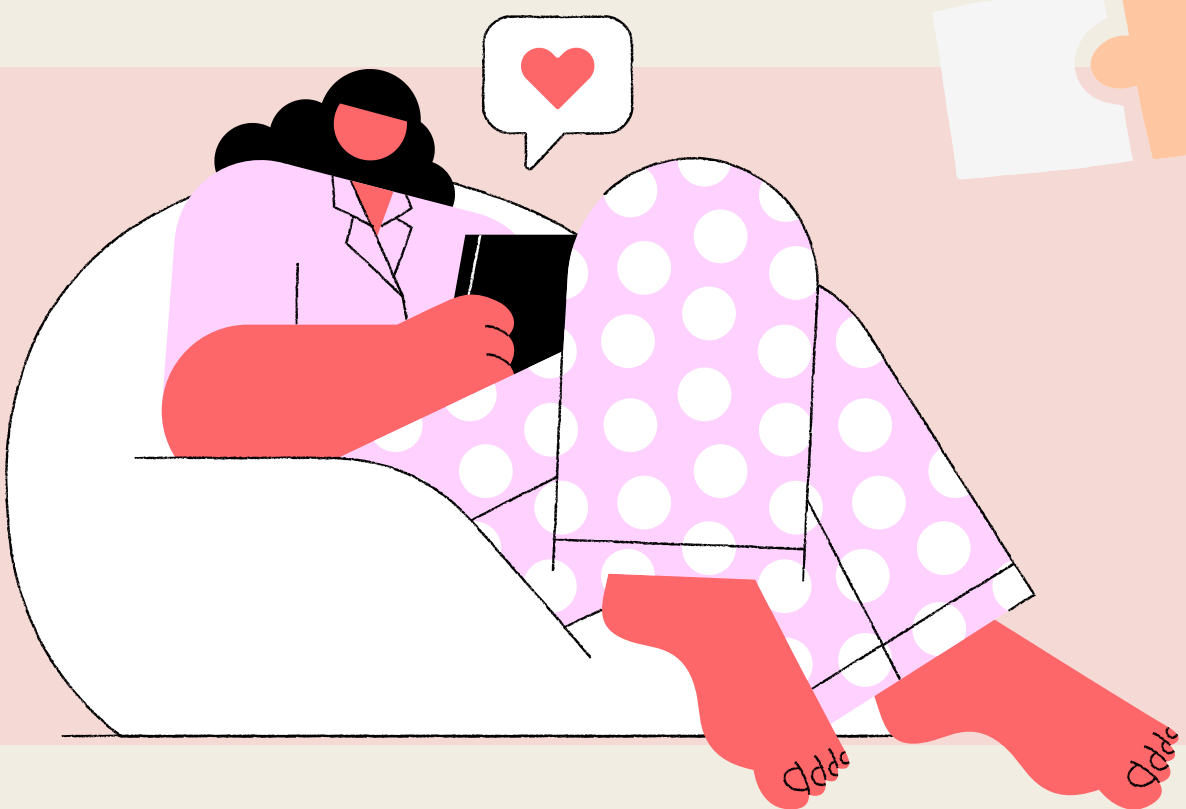

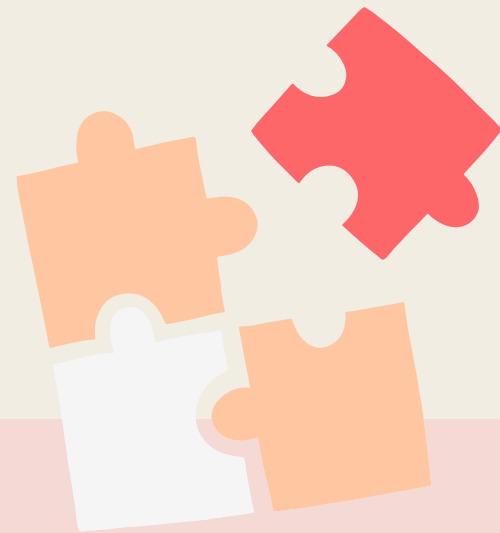

Engage daily at least 10 of the accounts that are following you

02

USE THE GEO TAG ON EVERY POST

You have the ability to tag the city, landmark or your business. This will increase the chance that your post will show up to your audience.

03

GET CURIOUS

Click to get to know the number of the reactions on your post. A list of those people comes up and it will tell you whether or not a person like your post.
